- Accurate and easy to use with a simple three-button operation
- No installation required
- Approved connected equipment for all classes of MOT's
- Supplied with PC software to communicate with DVSA MTS system

# AutoTest Micro Plus Decelerometer

GARAGE EQUIPMENT  
since 1922

## → About the DE/9045/CON

The Micro Plus is approved by the DVSA in the UK for all classes of MOT testing and is 'connected' Equipment Approved. Its lightweight and compact design means that can be held in the palm of your hand.

The unit can be mounted anywhere in the vehicle and is self-orientating by determining its own orientation at the beginning of each test. It measures tri-axial deceleration, forward deceleration and can store up to 10 tests.

There is a very simple to use 3 button operation and the test results can be downloaded to a PC via the connection kit and transmitted to the DVSA MTS System\*

## → Technical Specifications & Dimensions

Accelerometer accuracy.....	+/- 2%
Resolution.....	0.01g
Linearity.....	0.2% transverse
Transverse sensitivity.....	2%
Output.....	LCD display
Power source.....	2 x AA batteries
Temperature range.....	-5°C - 50°C
Size.....	65mm x 140mm x 35mm

## → Part Nos. & Ordering Information

Micro Plus with MTS connectivity kit.....	DE/9045/CON
Micro Plus (unit only).....	DE/9045

## → Options & Accessories

Serial cable and software.....	DE/9045/PCKIT
Magnetic fixing kit.....	OA/61136
Printer.....	OA/60612
