

Sentinel 3.2t 2-Post Lift without base frame

GARAGE EQUIPMENT
since 1922

Part No.: SF/9023

*See overleaf for
more information*

- Baseless design with clear floor between columns
- Suitable for lifting vehicles up to 3200kg GVW
- Asymmetrical, 3-stage lifting arm design
- Automatic arm locking
- 24v dead man controls
- Overload safety valve

Sentinel 3.2t 2-Post Lift without base frame

GARAGE EQUIPMENT
since 1922

→ About the SF/9023

The popular SF/9023 has been upgraded with a new asymmetrical, 3-stage lifting arm design to accommodate an extensive range of passenger vehicles and car-derived vans. The SF/9023 offers clear access between the columns, with the hydraulic lines and safety cables carried in an overhead gantry.

The fixed internal clearance height is 3650mm; however, a further 500mm of workshop roof height is required to allow clearance for the installation of the lift. Lifting pad extensions for higher ground clearance vehicles are available.

→ Technical Specifications & Dimensions

Operation.....	Electro-hydraulic
Lifting capacity.....	3200kg
Weight.....	700kg
Lifting/lowering.....	50 secs/35 secs
Lifting height.....	1935mm
Motor supply.....	2.2kW - 3ph 400V/50Hz
.....	2.2kW - 1ph 230V/50Hz
