- 3 stage symmetrical arms for lifting a wide range of vehicles
- Electronically controlled safety locks
- Optional high lift pad extensions for lifting vehicles with higher ground clearance available

# TWINTeC 4.0t Hydraulic 2-Post Lift with 3 stage arms

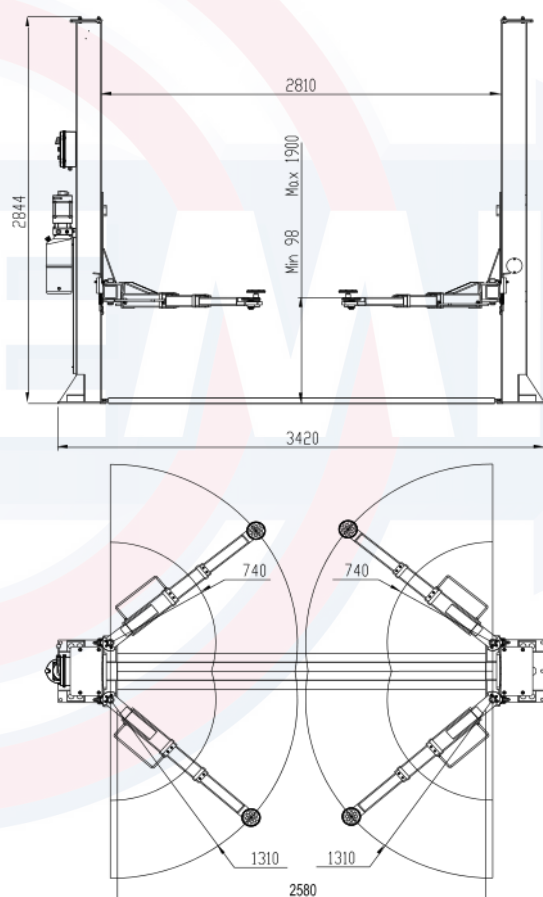

## → About the SF/9492

The SF/9492 4.0t 2-post lift perfectly combines Italian design and engineering fineness. Constructed from heavy-duty steel with a powder-coated finish, this electro-hydraulic lift ensures a stable lifting platform. Its lifting mechanism with cable synchronisation provides a smooth operation. Also included is an emergency manual pump for use during power outages.

The SF/9492 is packed with safety features including:

- Rubber door protectors
- Height limit switches
- Carriage locks
- Arm locks

Optional high lift pad extensions are available, and the lift is supplied a compact power module. All this, combined with a 2.2kW 'Soft-Start' Bosch Rexroth pump, make the SF/9492 a truly remarkable powerhouse of a lift.

## → Technical Specifications & Dimensions

Pad height min.....	98mm
Raised height.....	1900mm
Motor supply.....	2.2kW
Drive through width.....	2580mm
Maximum load.....	4000kg
Lifting time.....	60 secs
Overall height.....	2844mm
Overall width.....	3420mm
Net weight.....	670kg
Power supply.....	1ph 230V 50Hz
