

# Sentinel 4.0t 2-Post Lift without base frame

GARAGE EQUIPMENT  
since 1922

**Part No.: SF/8893**

*See overleaf for  
more information*

- Baseless design with clear floor between columns
- Suitable for lifting light goods vehicles up to 4000kg GVW
- Symmetrical, 3-stage lifting arm design
- Automatic arm locking
- 24v dead man controls
- Overload safety valve

# Sentinel 4.0t 2-Post Lift without base frame

GARAGE EQUIPMENT  
since 1922

## → About the SF/8893

The popular SF/8893 has been upgraded with a new symmetrical, 3-stage lifting arm design to accommodate an even more extensive range of long-wheelbase vehicles, passenger vehicles and car-derived vans. The SF/8893 offers clear access between the columns, with the hydraulic lines and safety cables carried in an overhead gantry.

The fixed internal clearance height is 4330mm; however, a further 500mm of workshop roof height is required to allow clearance for the installation of the lift. Lifting pad extensions for higher ground clearance vehicles are available.

	Version / Version	
	Standard	1500
A	4500	5100
B	4330	4930
C	3900	3900

## → Technical Specifications & Dimensions

Pad height min.....	125mm
Lifting height.....	1950mm
Motor supply.....	2.2kW
Drive through width.....	2526mm
Maximum load.....	4000kg
Maximum lifting time.....	35 secs
Weight.....	950kg
Power supply.....	3ph 400V 50Hz
