- Suitable for servicing & repairs or basic MOT
- Low access height
- Mechanical and hydraulic safety systems
- Audible warning on descent

Quadra 4.0t 5.0m Service & MOT Lift

GARAGE EQUIPMENT
since 1922

→ About the SF/9084

The SF/9084 is a heavy-duty lift designed for use with a broad range of cars and light goods vehicles up to a GVW of 4000kg.

With a wide drive through dimension between the columns and a total platform length of 5000mm, access onto the lift is easy and the relatively low platform profile of just 165mm makes the lift ideal for surface mounted installations. The SF/9084 is ideal for all types of general servicing and maintenance work.

Installation of the SF/9084 requires a level concrete floor of minimum C30 grade concrete of 160mm thickness. Power supply via a fused 20 amp isolator.

→ Technical Specifications & Dimensions

Minimum height.....	165mm
Raised height.....	1830mm
Motor supply.....	3.0kW
Maximum load.....	4000kg
Lifting time (3ph).....	35 secs
Lowering time (3ph).....	35 secs
Net weight.....	1080kg
Power supply.....	3ph 400V 50Hz
Fused isolator rating.....	20 amp
