→ About the SF/9224

The SF/9224 is a heavy-duty, 4.0t capacity, versatile 2-post lift. With a symmetric lifting arm configuration, this lift is suitable for use with a large range of passenger vehicles and longer wheelbase light commercial vehicles.

The SF/9224 has heavy-duty steel columns and 2 powerful 2.6kW motors, synchronised via electronic sensors which ensure absolutely level lifting carriages. The clear floor design allows access for transmission jacks, oil drainers and other items of workshop equipment.
