

Corto 3.0t 1.4m Mid-Rise Lift

GARAGE EQUIPMENT
since 1922

Part No.: SF/9130/1

*See overleaf for
more information*

- 3.0t lifting capacity
- Low profile access of 96mm
- Maximum working height of platforms 930mm
- Electro-hydraulic operation
- Double volumetric cylinder under each platform
- Fast lifting time of 30 seconds
- Suitable for use in fast fits & tyre shops
- Single phase power supply

Corto 3.0t 1.4m Mid-Rise Lift

GARAGE EQUIPMENT
since 1922

→ About the SF/9130/1

The SF/9130/1 is a short platform mid-rise scissor lift developed specifically for use in the fast fit/tyre shop environment.

With a compact design and the opportunity for easy re-location the SF/9130/1 provides a time & cost saving, wheel-free, lifting solution where rapid access to wheels, brakes and certain suspension and steering components is required.

With a lifting height of 930mm achieved in 30 seconds, vehicles of up to 3000kg are safely positioned at a convenient working height to enable a wide range of servicing work to be undertaken.

The SF/9130/1 also features a very low profile, when lowered, of just 96mm, allowing access to most cars and car derived vans, even those with low front spoilers.

→ Technical Specifications & Dimensions

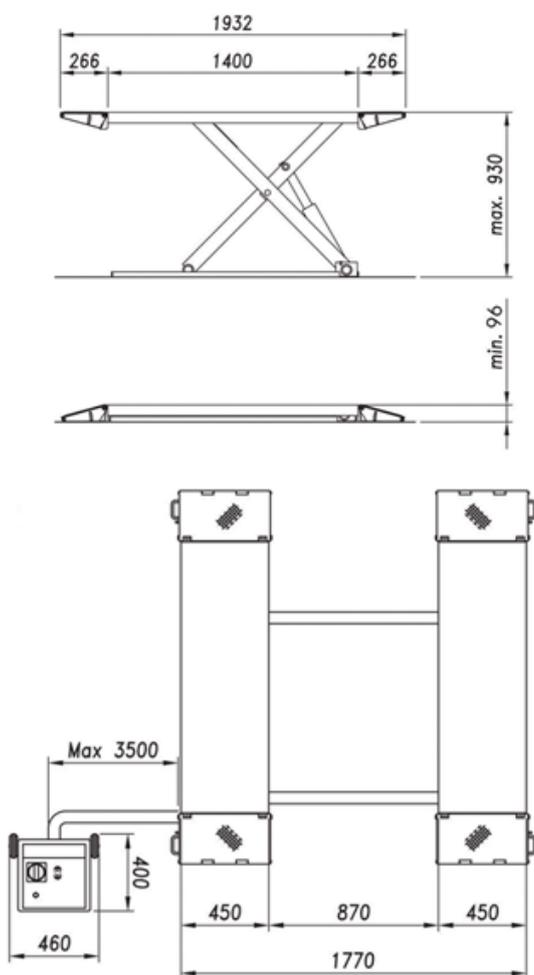

Maximum load.....	3000kg
Lifting / lowering time.....	30 - 35 secs
Maximum lifting height.....	930mm
Minimum lifting height.....	96mm
Length.....	1400mm / 1932mm
Overall width.....	1770mm
Motor.....	230/400V 50Hz
