Quadra 4.0t 4.5m Compact Class 4 ATL & OPTL Lift

GARAGE EQUIPMENT since 1922

About the SF/9259

Tecalemit has produced a lift with a 4.0t capacity suitable for installation into many existing MOT lift excavations. The SF/9259 lift is compact and meets the testing requirements for Class 4 ATL & OPTL. Its shallower profile and slightly narrower width compared to a standard ATL lift makes it suitable for installation in many floor recesses designed for Tecalemit or other Class 4 MOT lifts.

The lift is manufactured from top grade materials to ensure longevity and performance without deflection and distortion. The SF/9259 Class 4 ATL & OPTL lift conforms to EN 1493 and CE requirements for lifting equipment.
