Leviathan Heavy Duty Commercial Scissor Lifts

GARAGE EQUIPMENT
since 1922

→ About the SF/9620 range

The Leviathan range of heavy duty scissor lifts are engineered to the very highest standards and offer outstanding specifications, performance and value for money. Leviathan scissor lifts are designed for surface mounted or recessed installations.

The lifts are offered in two weight capacities, 10t or 20t and five platform lengths. The lift platforms are fitted with jacking rails allowing an appropriate jacking beam to be used in conjunction with each load capacity.

These lifts are also fitted with mechanical safety latching, hydraulic safety valves and automatic platform levelling with volumetric synchronisation ensuring that the lifting system achieves the highest internationally recognised safety standards.
